Tilapia MultiPath™

Tilapia MultiPath™ focuses on early pathogen detection, so you can mitigate outbreaks weeks before your tilapia show the first signs of disease.

Tilapia MultiPath™ is the ultimate disease early warning system

Detects 18 destructive pathogen targets in a single test

Identifies different genetic variants of relevant pathogens

Includes controls to validate every test result and quantify infection severity

Includes control tests to validate RNA and/or DNA sample integrity

Rapidly generates results on large numbers of samples within 48 hours

Data Security: Genics maintains strict client confidentiality of all test results.
